

Coastal Management Zones Best Management Practices Training and Information Workshop

Agenda

When: Friday 2nd December 2012

Where: DERM Offices located at Cape Pallarenda Conservation Park

Presented by: Dr Greg Calvert

Time: 10.00am – 1.30pm

Coastal dunes play an important role in protecting our coastline and we know that vegetation increases the health and resilience of our dunes; but do we know how to revegetate a dune effectively and in accordance with DERM recommendations.

This workshop will address the what, where and how as well as looking at the recent impacts of Cyclone Yasi and what we have learnt from that event in terms of coastal management.

Please join us at Cape Pallarenda, workshop includes a light lunch and site discussion.
